UG law courses there are two kind of streams that, is substantive law and procedural law. SSRA Law College, Beed follows well planned mechanism for curriculum delivery as well as maintains proper documentation. Every teacher is provided with the college diary so that he/she can mention all college activities in the Diary. Minutes of all meeting are mentioned in it. At the end of semester, it is checked by the Principal. At the starting of the semester, every teacher is required to submit teaching plan for their respective subjects, which includes details of curricular content, on which date, which topic will be taught and thus accordingly teachers make preparation of lectures. 1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

The college has a very good mechanism for the feedback. Feedback is needed to fill the loopholes which are found after making analysis of the work. The Institute takes feedbacks form the stakeholders of the institute without which no institute can create its own identity. A teacher is a person who actually implements the curricular content and benefits the students with his/her knowledge and experience. Sometimes due to defective syllabi, the students are disadvantaged from gaining legal knowledge. A teacher is a bridge between curriculum and students. He/she is better person who can comment on the curricular contents in better way. Thus, institute takes feedback from the teachers whether present syllabi fulfils the need of legal education, whether maximum legal knowledge can be imparted through present syllabi, what are the lacunae in present syllabi and which topics can be added in the syllabi. Thus, at last deliberate discussion is made on it and finally, these issues are put for the before administrative authorities of the university so that proper action can be taken by them. Then feedback is taken from the students. The students are those stakeholders of the institute without whom, any educational institute cannot be run. Their satisfaction is of most concern for the institute. The students are asked to give the feedback about teachers, their teaching methods, whether they are able to understand the topic taught by the teachers, whether teaching plan was properly executed, whether all syllabi was covered or not, what difficulties are faced by the students during learning process. Then such feedback is analyzed, and proper mechanism is implemented that students will not face these problems again. Their suggestion are taken and implemented. Meeting is conducted by the Principal and discussion is made on it, evaluation made for teacher is discussed and each teacher is asked to give opinion on it. Then feedbacks forms the parents of the students are taken about overall institution, parents are asked some question about their children's development so that institute will come to know their status as an educational institution. Suggestions from the parents are taken and brought into practice. Then feedbacks from the alumni are taken. These feedbacks matter a lot as alumni already have lot of experiences about the institute and they can advise better for the development of the institute. Alumni meeting will be arranged for this prpose and feedback is taken from the, suggestions are taken and implemented in the institute. The documentation elated to feedback is properly maintained by the institute. Feedback is made available on the college website and remedial procedures are also mentioned.
